

Business Without Borders Sourcing Asia

Dramatic changes in the world economy and a shifting international landscape have created business challenges for U.S. importers and exporters.

Join HSBC Bank and the *South Florida Business Journal* for a panel discussion on the risks involved in trade and supply chain today, and successful tactics to help mitigate those risks. Our panel of experts will focus their discussion on real life examples, issues to consider, and share with you what works and what doesn't in the competitive international environment.
